Dear Grant Applicant:

The Arizona Department of Agriculture is pleased to present the **2<sup>nd</sup>** Specialty Crop Block Grant Program-Farm Bill (SCBGP-FB) Grant Manual. The purpose of this program is solely to enhance the competitiveness of specialty crops in Arizona. For purposes of the program, specialty crops are defined as fruits and vegetables, tree nuts, dried fruits, and nursery crops (including floriculture).

This manual is designed to instruct applicants in preparing successful grant application packets for funding assistance from the Arizona Department of Agriculture (ADA) for revenues appropriated pursuant to the Agricultural Act of 2014. **Please take the time to read this grant manual carefully and follow all given instructions. Incomplete applications, applications that include support letters or documentation, or applications that exceed the given page limits shall be deemed ineligible.** Applicants are strongly encouraged to communicate with industry representatives or stakeholders that may be affected by the grant application so that they are aware of the efforts.

The following substantive changes have been made for the new 2017 SCBGP-FB Grant Cycle:

1. **The maximum grant request shall not exceed \$100,000.00 – Pages 4, 14 and 20**
2. **Added Section I.M. Financial Management Compliance – Page 9**
3. **Application Packets are required to be submitted on-line at:**  
[https://gn.ecivis.com/GO/gn\\_redir/T/1lbhnxejnb1cr](https://gn.ecivis.com/GO/gn_redir/T/1lbhnxejnb1cr) – Pages 11, 19 and 55
4. **It is highly recommended that applicants visit the webpage above and review the instructions in Appendix H as soon as possible to become familiar with the NEW on-line application process – Pages 11, 13, 19 and 55**
5. **Application Packet submission deadline is 11:59:59 p.m. (MST) on May 24, 2017 – Pages 19, 69 and 71**
6. **General compliance with instructions provided is now a screening criteria – Page 14**
7. **Addition of Appendix F – Quarterly Reporting Template – Page 46**
8. **Addition of Appendix G – Final Performance Reporting Template – Page 51**

**AMS has announced that the ADA's 2017 Specialty Crop Block Grant Program allocation will be approximately \$1,144,644.00. After the first round of applications were evaluated, approximately \$381,000.00 remains available for this 2<sup>nd</sup> funding cycle.**

The following is a list of general reasons that applications were not considered for evaluation:

- Failure to follow the instructions provided in the grant manual.
- Failure to obtain an authorized signature.
- Failure to submit application packet files in the proper format.

The following is a list of general concerns during the evaluation process. Concerns with:

- Arbitrary budgets
- Funding of full-time positions for one grant project.
- Funding out-of-state-travel or out-of-country travel.

- Funding publication costs.
- Project not in touch with industry needs / no benefit to the industry / not an industry priority.
- Research / projects have been conducted in the past.
- Inefficient use of funds.
- Research / projects are outside of the purpose of the grant program.
- Potential false claims.
- Poor planning.
- Methodology and potential embellishment of expected results.

The Arizona Department of Agriculture anticipates that grant monies will be available to successful applicants by late 2017. ADA may place a per applicant cap on grant awards. This manual contains general program information, criteria rating system, and application packet requirements. Completed application packets are due no later than **11:59:59 p.m. (MST), Wednesday, May 24, 2017.**

Thank you for your interest in this important program and we look forward to receiving your application packet.

Sincerely,

A handwritten signature in black ink that reads "Mark W. Killian". The signature is written in a cursive style and is positioned above the printed name and title.

## **I.B. Mission Statement**

The mission of the Arizona Department of Agriculture (ADA) is to regulate and support Arizona agriculture in a manner that encourages farming, ranching and agribusiness while protecting consumers and natural resources.

## **I.C. Background**

The Specialty Crops Competitiveness Act of 2004 authorized the United States Department of Agriculture (USDA) to enhance the competitiveness of specialty crops. The Food, Conservation, and Energy Act of 2008 (Farm Bill) amended the Specialty Crops Competitiveness Act of 2004. Under the amended Act, the Secretary of Agriculture is directed to make grants to States for each of the fiscal years 2008 through 2012 to be used by State departments of agriculture to enhance the competitiveness of specialty crops. The American Taxpayer Relief Act of 2012 provided funding for fiscal year 2013 [and section 10010 of the Agricultural Act of 2014, Public Law 113-79](#) will provide funding for fiscal years 2014 through 2018.

## **I.D. Grant Writing Resources**

If you have difficulty with this grant writing and application process, you are encouraged to seek help from an appropriate resource. There are several organizations and individuals who offer grant writing services for a fee.

## **I.E. Funding Source and Available Funds**

AMS is charged with distributing block grant funds to state departments of agriculture, the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, the U.S. Virgin Islands, and the Commonwealth of the Northern Mariana Islands to enhance the competitiveness of specialty crops. **AMS has announced that the ADA's 2017 Specialty Crop Block Grant Program allocation will be approximately \$1,144,644.00. After the first round of applications were evaluated, approximately \$381,000.00 remains available for this 2<sup>nd</sup> funding cycle.** ADA plans to make available for grants all of the funds appropriated to it under the SCBGP-FB this year less ADA's share for program administration. ADA may withhold up to eight percent for program administration. [Section 10010 of the Agricultural Act of 2014.](#)

ADA plans to award multiple grants from these funds for the fiscal year 2017 grant cycle. **The maximum grant request shall not exceed \$100,000.00. The average award in previous cycles has been approximately \$64,000.00. ADA may place a per application cap on grant awards.** USDA, however, as the funding source, has the final approval over grant projects. Thus, while ADA's Director makes the preliminary decisions based on ADA staff review and recommendations from a review panel of industry representatives, **USDA will make the final decision concerning grant awards.**

## **I.F. Quarterly Reimbursements and Funding Advances**

Quarterly reimbursement will be contingent upon compliance with guidelines set forth by ADA. Each payment is conditioned upon receipt and approval by the Program Coordinator of the Deliverable(s) specified in the Scope of Work and shall be accompanied by reasonable assurance (documentation, receipts, invoices, etc.) that the goods and services for which payment is requested were actually received and performed. ADA has the right to disallow costs determined

inappropriate or unreasonable. The Program Coordinator shall have a minimum of thirty (30) working days to approve the Deliverable(s) and payment request forms.

Requests for funding advances will be considered on a case by case basis. If a funding advance is requested, the need for the advance must be clearly stated in the project proposal. Advances will be limited to the minimum amounts needed to meet current disbursement needs and will be scheduled so the funds are available as closely as administratively possible to the actual expenditures by the grantee. In addition, initial funding advances shall **not exceed 25%** of the total grant award and must be expended within 30 days of receipt.

### **I.G. Eligible Applicants**

State and/or local organizations, government entities, producer associations, academia, community based organizations, and other specialty crop stakeholders are eligible to apply either as single entities or in combined efforts. Regional or multistate projects may be considered by ADA. SCBGP-FB grant funds will be awarded for projects of **up to 2 years duration**. An entity may submit more than one application packet, but only if the application packets are for completely different projects. If submitting multiple project application packets, please prioritize your submissions.

### **I.H. Eligibility Requirements**

In order to receive an award and enter into a Grant Award Agreement with the ADA, all applicants that are entities (as defined in [2 C.F.R. § 25.320](#)) must provide a Data Universal Numbering System (DUNS) number to the ADA. A DUNS number is a nine-digit number established and assigned by Dun and Bradstreet, Inc. (D&B) to uniquely identify business entities. A DUNS number may be obtained from D&B by telephone (currently 866-705-5711) or via the web (currently at <http://fedgov.dnb.com/webform>).

Entity, as it is used in this section, means all of the following, as defined at [2 C.F.R. § 25.320](#):

- A governmental organization, which is a State, local government, or Indian Tribe;
- A foreign public entity;
- A domestic or foreign nonprofit organization;
- A domestic or foreign for-profit organization; and
- A federal agency receiving an award under ADA.

### **I.I. Eligible Projects**

To be eligible for a grant, the project(s) **must solely enhance the competitiveness** of U.S. or U.S. territory grown specialty crops in either domestic or foreign markets. Projects must benefit more than one commercial product (e.g., ABC Company brand), organization or individual. Projects must also be able to perform one of the new national outcome measures as described in **Section II.D.** and **Appendix D.**

AMS SCBGP will not award grant funds for projects that solely benefit a particular commercial product or provide a profit to a single organization, institution, or individual. In addition, recipients and subrecipients cannot use grant funds to compete unfairly with private companies that provide equivalent products or services. Single organizations, institutions, and individuals are encouraged to participate as project partners.

The following are **some** examples of unacceptable and acceptable projects:

### **Examples of Unacceptable Projects**

- A company requests grant funds to purchase starter plants or equipment used to plant, cultivate, and grow a specialty crop to make a profit, or to expand production of a single business or organization.
- A State requests grant funds to make grants to individual specialty crop businesses or roadside stands to promote their individual business.
- A non-profit organization uses grant funds to purchase produce and then sells that produce to other entities at cost or a higher price than the purchase price while competing with other private companies who sell produce in the area
- A sole proprietor requests grant funds to redesign her/his logo in order to make her/his specialty crop value-added product stand out at the local farmers' market.
- A single specialty crop organization requests grant funds to market its organization so that it can increase membership in the organization.

According to the [USDA definition](#), bio-energy crops are not considered Specialty Crops. Projects that support biobased products and bioenergy and energy programs, including biofuels and other alternative uses for agricultural and forestry commodities (development of biobased products) should see the USDA energy website at <http://www.usda.gov/energy/matrix/home> for information on how to submit those projects for consideration to the energy programs supported by USDA.

### **Examples of Acceptable Projects**

- A State requests funding to contract with a university to conduct research on the feasibility of planting, cultivating, and growing a specialty crop in a particular area, the results of which will be shared with many growers throughout the State during the project.
- A single grower requests funds to demonstrate the viability of organic small fruit production and partners with Cooperative Extension to publicize the working model of diversification to other regional growers.
- A single company requests funds to provide a viable pollination alternative to specialty crop stakeholders in a region that currently does not have one.
- A single non-profit organization requests funds to conduct an advertising campaign that will benefit their specialty crop members.
- A single farmer erects high tunnels on his/her property to extend the growing season of tomatoes and lettuce and conducts a field day and farm tour to encourage other small family farmers to adopt the production methods.

Acceptable projects must also be able to perform one of the new national outcome measures as described in **Section II.D.** and **Appendix D.**

Examples of enhancing the competitiveness of specialty crops include, but are not limited to:

- research
- promotion

- marketing
- nutrition
- trade enhancement
- food safety
- food security
- plant health programs
- education
- “buy local” programs
- increased consumption
- increased innovation
- improved efficiency and reduced costs of distribution systems
- environmental concerns and conservation
- product development
- developing cooperatives

AMS encourages states to develop projects solely to enhance the competitiveness of specialty crops pertaining to the following issues affecting the specialty crop industry:

- increasing child and adult nutrition knowledge and consumption of specialty crops;
- participation of industry representatives at meetings of international standard setting bodies in which the U.S. government participates;
- improving efficiency and reducing costs of distribution systems;
- assisting all entities in the specialty crop distribution chain in developing “Good Agricultural Practices”, “Good Handling Practices”, “Good Manufacturing Practices”, and in cost-share arrangements for funding audits of such systems for small farmers, packers and processors;
- investing in specialty crop research, including organic research to focus on conservation and environmental outcomes;
- enhancing food safety;
- developing new and improved seed varieties and specialty crops;
- pest and disease control;
- and sustainability.

The following types of projects may not necessarily be precluded from SCBGP-FB funding. However, there are other funding opportunities that may be more appropriate.

The Specialty Crop Research Initiative (SCRI) is an alternative funding program for projects to support research and extension that address key challenges of national, regional, and multi-state importance in sustaining all components of food and agriculture, including conventional and organic food production systems. For more information go to:

<http://www.csrees.usda.gov/fo/specialtycropresearchinitiative.cfm>

Projects that support the increase of fruits and vegetables in the Supplemental Nutrition Assistance Program (SNAP) by providing incentives at the point of purchase and/or include technologies for benefit redemption systems should consider submitting those projects to the

Food Insecurity Nutrition Incentive (FINI) Grant Program at:  
<https://nifa.usda.gov/program/food-insecurity-nutrition-incentive-fini-grant-program>

Projects that support domestic farmers' markets, roadside stands, community-supported agriculture programs, agritourism activities, other direct producer-to consumer market opportunities, local and regional food business enterprises that process, distribute, aggregate, or store locally or regionally produced food products should consider submitting those projects to the Farmers' Market and Local Food Promotion Program at <http://www.ams.usda.gov/fmpp>.

**Multi-state projects** - [Section 10010 of the Agricultural Act of 2014](#) provides funding specifically for multi-state projects. Guidelines for the new Specialty Crop Multi-State Program (SCMP) can be found at <http://www.ams.usda.gov/services/grants/scmp>.

### **I.J. Eligible and Ineligible Specialty Crops**

Commonly recognized specialty crops are fruits, vegetables, tree nuts, dried fruits, and nursery crops (including floriculture). Eligible crops also include: Christmas trees, cut flowers, maple syrup, honey, hops and tea leaves.

Please visit the USDA-AMS Specialty Crop Block Grant Program-Farm Bill website ([www.ams.usda.gov/scbgbp](http://www.ams.usda.gov/scbgbp)) for a more comprehensive list of eligible and ineligible commodities, listed under "What are Specialty Crops?"

### **I.K. Disagreement Process**

Applicants have the right to protest the grant manual and grant awards. A protest of an award or proposed award of a grant and any appeal shall be resolved in accordance with the rules of procedure adopted pursuant to [A.R.S. § 41-2611](#). See [A.A.C. R2-7-A901](#) et seq. An interested party shall file a protest in writing with the Director of the Department of Agriculture, with a copy to the State Procurement Administrator. A protest of the grant manual shall be filed before the due date and time for grant applications. A protest of a proposed award or of an award shall be filed within 10 days after the grant applications are open for public inspection. A protest shall include the following information:

1. The name, address and telephone number of the protesting party;
2. The signature of the protesting party or its representative;
3. Identification of the agency soliciting grant applications and the name and year of the grant program;
4. A detailed statement of the legal and factual grounds of the protest, including copies of relevant documents; and
5. The form of relief requested.

### **I.L. General Compliance**

All awarded grant projects must comply with all applicable federal and state laws and regulations and the terms of the grant award.

This new consolidated guidance is sometimes referred to as the OMB "Supercircular" or "Uniform Guidance." The

<http://agriculture.az.gov>

new rules are codified in [2 C.F.R. § 200](#). USDA implementation of the rules is located at [2 C.F.R. § 400](#). As part of the new guidance, a Grantee must maintain written standards of conduct covering conflicts of interest governing the performance of its employees in the selection, award, and administration of awards. The Grantee must use Federal funds in a responsible manner and apply adequate internal controls and cash management practices consistent with the requirements outlined in [2 C.F.R. § 200.303](#).

#### **I.N. Permitting Requirements**

SCBGP-FB funded projects may involve conducting work that requires permits and clearances from various agencies. ADA does not determine which, if any, permits are required for specific projects nor does it review permits for accuracy or appropriateness. Applicants are responsible for determining that all necessary permits that apply to their project are identified and obtained.

#### **I.O. Arbitration**

Grantees must agree to use arbitration, after exhausting all applicable administrative remedies, to resolve disputes arising out of the Grant Award Agreement to the extent required pursuant to [A.R.S. § 12-1518](#).

#### **I.P. Indemnification**

Grantees shall indemnify and hold harmless the State of Arizona, its departments, agencies, boards and commissions for the vicarious liability of the State as a result of entering into a Grant Award Agreement. If funds are not allocated and available for the continuance of the Agreement, the Agreement may be terminated by the State at the end of the period for which funds are available. No liability shall accrue to the State in the event this provision is exercised, and the State shall not be obligated or liable for any future payments or for any damages as a result of termination under this paragraph.

### **I.T. Records Requirements**

The Grant Award Agreement will require that grantees retain and contractually require each subcontractor to retain all records as required by [2 C.F.R. §§ 200.333-337](#) (as applicable), and until any litigation, claim, negotiation, audit, cost recovery, or action involving the records has been completed. Grant Award Agreements will also require that all records shall be subject to inspection and audit by the State at reasonable times and the Grantee shall produce the original of any or all records upon request.

### **I.U. Monitoring**

ADA reserves the ability to perform site monitoring visits to any and all grantees to ensure that work is progressing within the required time frame and that fiscal procedures are followed accurately and appropriately. Monitoring includes both financial and program information as well as site visits.

### **I.V. Copyright**

AMS and ADA reserve a royalty-free, nonexclusive, and irrevocable license to reproduce, publish or otherwise use and to authorize others to use for government purposes (i) the copyright in any work developed under a grant and (ii) any rights of copyright to which a grantee purchases ownership with grant support.

### **I.W. E-Verify**

If the grantee is an employer as defined in [A.R.S. § 23-211\(4\)](#), the grantee shall register with and participate in the e-verify program. Before receiving the grant funds, the grantee shall provide proof to the Department that the grantee is registered with and is participating in the e-verify program. If the Department determines that the grantee is not complying with this section, the Department shall notify the grantee by certified mail of the Department's determination of noncompliance and the grantee's right to appeal the determination. On a final determination of noncompliance, the grantee shall repay all monies received as a grant to the Department within thirty days of the final determination.

### **I.X. Lawful Presence**

If a grantee is a natural person, the grantee must provide to ADA evidence of lawful presence in the United States as required under [8 U.S.C. § 1611](#) et seq. and [A.R.S. § 1-501](#) before becoming eligible to enter into a Grant Award Agreement and to receive grant funds.

- AMS will aggregate the data collected to assess the overall impact of the program and report to OMB and Congress on these national outcome measures.
- AMS will review the quality of the information received in subsequent performance reports and modify the outcomes and indicators as needed over time to lead to better results in showing the impact of the SCBGP.

## **II.G. Application Packet Due Date for Early Review**

Applicants may submit application packets early to be reviewed for **screening criteria compliance and completeness only** by ADA staff. ADA staff will only review and verify that the application packet includes all items in Section III.A. Screening Process and is therefore complete. All application packets submitted for early review must be received by **11:59:59 p.m. (MST) on Monday, May 22<sup>nd</sup>**. This will allow time for ADA to review the application packet and alert the applicant if any required information is missing. The applicant will then have the opportunity to submit the missing information prior to the final application packet due date. **Please follow instructions in Appendix H to submit application packets for early review.**

### III. Grant Awards and Reporting

#### III.A. Screening Process

At least three ADA staff will screen the application packets and previous reporting compliance according to the Screening Criteria below. Only application packets that adequately address the criteria listed below will receive further consideration for an award.

#### Application Packet Screening Criteria

<b>1. Eligible Specialty Crop</b>
Is/are the commodity(s) deriving benefit from the grant eligible under the USDA-AMS “Definition of Specialty Crops”?
<b>2. Application Cover Sheet</b>
Is the cover sheet completed in the fillable PDF form? Is the project title no more than six words? Does the cover sheet have an authorized signature? Is the cover sheet no more than one page? Is the amount requested \$100,000.00 or less?
<b>3. Project Profile</b>
Does the project proposal include the following sections? <ul style="list-style-type: none"><li>• Project Start and End Dates</li><li>• Applicant Organization and Project Summary (no more than 250 words)</li><li>• Project Partner Organization (if applicable)</li><li>• Project Purpose</li><li>• Project Impact</li><li>• External Project Support</li><li>• Expected Measurable Outcomes</li><li>• Project Funding</li><li>• Budget Narrative</li></ul>
<b>4. Reporting Compliance</b>
Is the project being led by an individual who has complied with the Grant Award Agreement requirements of previous SCBGP-FB project(s), including reporting requirements?
<b>5. General Compliance with Instructions Provided</b>
Did the applicant comply with the instructions provided throughout this grant manual?

#### III.B. Application Packet Evaluation Process

Upon completion of the screening process described in section III.A. all remaining application packets will be evaluated by the SCBGP-FB Evaluation Team. The Evaluation Team will be made up of at least three individuals with the appropriate background and expertise necessary to evaluate project proposals.

The Evaluation Team will first assess to what extent the proposed project:

- (i) enhances the competitiveness of the specialty crop(s) benefiting from the project;

- (ii) **clearly defines a challenge** that is facing today’s Specialty Crop industry or a lack of education about and/or access to specialty crops and indicates a project that **assists in finding a solution**;
- (iii) includes well justified and appropriate budget information; and
- (iv) is feasible.

Based on these four criteria, the Evaluation Team will determine which projects will receive recommendation for funding. Neither the Evaluation Team, nor ADA is required to recommend funding a project that does not sufficiently satisfy these four criteria even if there are enough remaining grant funds to do so.

**III.C. Application Packet Evaluation Rating Criteria**

For those application packets not eliminated by the screening process in III.A. and recommended for funding by evaluation process in III.B., the Evaluation Team will use the criteria listed below to rate the application packets and make recommendations for funding to the ADA Director.

<b>Weight</b>	<b>Criteria</b>	<b>Rating</b>
40%	To what extent will the proposed project enhance the competitiveness of the specialty crop(s) benefiting from this project?	0 to 5 with 0 being the lowest and 5 being the highest
30%	To what extent does the proposal clearly define a challenge that is facing today’s Specialty Crop industry and indicate a project that assists in finding a solution?	0 to 5 with 0 being the lowest and 5 being the highest
10%	How will the results of the project or the project itself be shared with the appropriate target audience(s)?	0 to 5 with 0 being the lowest and 5 being the highest
10%	Does the budget align with the activities of the project and only contain necessary costs?	0 to 5 with 0 being the lowest and 5 being the highest
10%	Are matching funds or in-kind contributions being provided for the proposed project?	0 to 5 with 0 being the lowest and 5 being the highest

The SCBGP-FB Evaluation Team may adjust an application packet’s project proposal, scope of work and/or project budget.

ADA may ask a potential grantee for more information on any of the above Application Packet Requirements before awarding the grant or entering into an agreement with the grantee. ADA reserves the right to fund the project in part, add and delete tasks, and ask for clarification on the work plan, timeline, and budget. No agreement will be entered into until ADA is satisfied with

all the specifications of the project. Any project proposal funding is dependent upon the availability of federal funds and final approval from the USDA.

### **III.D. Notification of Award**

All eligible proposals will be reviewed. Successful proposals will be chosen on the merits of the project as they relate to the published criteria and will be included in the Arizona State Plan, which will be submitted to AMS. Applicants will be notified in writing whether or not their project is selected for inclusion in the Arizona State Plan. Funding is not guaranteed if the project is included in the State Plan. Following approval of the Arizona State Plan by AMS, applicants will be notified and sent a Grant Award Agreement to sign. ADA anticipates that grant awards and notifications will be made in late 2017.

*Please do not call ADA to check on the status of an application packet.*

After grant awards have been made, all application packets and the associated evaluations will be made available to the public. If the applicant believes that any of the information contained in the application packet should be held confidential pursuant to State or Federal law, the applicant must designate that information as “confidential” in the application packet and identify the applicable law. ADA may determine that trade secrets or proprietary information may or may not continue to be held confidential.

### **III.E. Reporting Awards and Executive Compensation**

ADA must report each action that obligates \$25,000 or more in SCBGP-FB funds for a grant to an entity, which is defined in [2 C.F.R. § 25, subpart C](#), to <http://www.fsr.gov> in accordance with the Federal Funding Accountability and Transparency Act (FFATA).

Additionally, ADA must report the names and total compensation of a grantee’s five most highly compensated executives for the grantee’s preceding completed fiscal year if, but only if, (i) the grantee received \$25 million or more in annual gross revenues and 80% or more of its annual gross revenues from federal procurement contracts and certain federal financial assistance during the preceding fiscal year and (ii) the public does not have access to information about the compensation of the executives through SEC reports. Grantees meeting these conditions must provide the required information to ADA when they execute a Grant Award Agreement.

### **III.F. Grant Award Agreement and Payment**

Prior to receiving funding, successful applicants will be required, as applicable, to provide a DUNS number (section I.H.), proof of registration with and participation in e-verify (section I.W.), and evidence of lawful presence (section I.X.). They will also be required to sign a Grant Award Agreement with the ADA indicating their intention to complete the proposed tasks and authorizing ADA to monitor the progress of the proposed project. The Grant Award Agreement will include provisions identified in sections I.K. – I.X. as well as reporting requirements.

Grant Award Agreements must be signed and returned to ADA within 30 days of receipt.

**Failure to submit an executed copy of the Grant Award Agreement within 30 days of receipt will result in the loss of awarded grant funds**, unless the delay was caused by circumstances outside the control of the grantee.

Grant Award Agreements may be up to two years in duration depending on the type of project. **ADA staff will write the grant award agreement based on the information provided, so it is important that the application packet is completed carefully.**

Requests for funding advances will be considered on a case by case basis. If a funding advance is requested, the need for the advance must be clearly stated in the project proposal. Refer to section I.F. for more details.

### **III.G. Reporting Requirements**

1. **Quarterly Performance Reports** - The Grantee shall submit, via electronic mail, the following documentation to the Program Coordinator within 30 days of the close of each quarter for the length of the project (see reporting schedule below).

- a. A budget report
- b. A signed activity report
- c. A narrative report

The reports shall include, but are not limited to, budget expenditures, applicable in-kind (matching) expenditures, activity reports, and a brief narrative of the project's progress, as applicable. **Failure to submit timely reports may result in the forfeiture of payment for that quarter and may affect the screening process of future grant applications.**

<b>Reporting Periods</b>	<b>Report Due on or before</b>
October 1 – December 31	January 31
January 1 – March 31	April 30
April 1 – June 30	July 31
July 1 – September 30	October 31

The general information and template required for the Quarterly Performance Report (subject to change by AMS guidance) is provided in **Appendix F**.

- 2. **Reimbursement** - Reimbursement requests may be submitted with each quarterly report or less frequently if no expenses have been incurred. The Grantee must obtain pre-approval from the Program Coordinator before any funds are reallocated within the approved budget.
- 3. **Annual Oral Presentations** - The Grantee may be required to make an annual oral presentation to ADA staff and other SCBGP stakeholders as scheduled by the SCBGP Coordinator.
- 4. **Final Performance Report** - A final report must be submitted to ADA by the Grantee, via electronic mail, no later than forty five (45) calendar days after the Agreement termination date. **Failure to submit timely final reports may result in the forfeiture of final payment and may affect the screening process of future grant applications.** The final report must be approved by ADA and AMS. ADA will not disburse final payment until all requirements of the Agreement have been fulfilled. All remaining grant funds or outstanding grant funds must be reconciled. The final narrative report shall address all points listed below and be suitable for dissemination to the public.

All Final Performance Reports will be posted on the ADA's website at <https://agriculture.az.gov/previous-fundings-projects>. Industry representatives and stakeholders will be notified when reports are posted.

The general information and template required for the Final Performance Report (subject to change by AMS guidance) is provided in **Appendix G**.

### **III.H. Amendments**

Grant Award Agreements shall only be modified by mutual written consent through a Grant Award Agreement Amendment executed by ADA and the Grantee. Unauthorized changes to Grant Award Agreements shall be void and without effect, and the Grantee shall not be entitled to any claim under this Agreement based on those changes.

Grant Award Agreements are intended to incorporate all provisions required by federal law. If the Department learns that a provision required by federal law has not been incorporated in the Agreement, the parties agree to promptly amend the Agreement to include the provision.

**Budget Adjustments** – If a project budget adjustment is needed during the project period, a written request may be made to ADA to reallocate budget funds between budget categories. However, the total budget amount as dictated by the approved grant award cannot be adjusted except as provided in section III.I. **No deviation from the approved budget will be allowed without prior approval by the Program Coordinator.**

**Unexpended Funds** – Grantees shall inform ADA of the potential for unexpended awarded grant funds as soon as the grantee is aware of the potential for unexpended funds, but no later than 90 days prior to the award expiration date. **Failure to expend budgeted funds may affect the screening process of future grant applications.**

### **III.I. Distribution of Unexpended Awarded Funds**

Unexpended awarded funds refer to awarded grant funds that grantees do not spend either because a grantee completed its project under budget or a grantee did not complete all aspects of the project covered by the grant award agreement. ADA reserves the right to use unexpended awarded funds to provide additional grant funds to other grantees who have current grant award agreements for projects covered by those agreements or to provide initial funding to applicants who had previously applied for funding but had not been awarded a grant due to lack of available funds. The Director will document in writing the specific justifications for any distributions of unexpended awarded funds made under this section.

## BUDGET NARRATIVE

A thorough and detailed budget must be submitted with the application packet. **No administrative/indirect costs may be allotted to the budgeted project. Please round totals to the next whole dollar.**

**Pre-award costs are allowable**, if such costs are necessary to conduct the project or program, and would be allowable under the grant, if awarded. A grantee may incur pre-award costs without prior approval from the ADA, **at its own risk**. The incurrence of pre-award costs in anticipation of an award imposes no obligation on the ADA or AMS SCBGP to award funds for such costs.

Pre-award costs are defined as those costs incurred prior to the effective date of the Federal award directly pursuant to the negotiation and in anticipation of the Federal award where such costs are necessary for efficient and timely performance of the scope of work. Such costs are allowable only to the extent that they would have been allowable if incurred after the date of the Federal award and only with the written approval of the Federal awarding agency and the ADA. [2 C.F.R. § 200.458](http://www.ecfr.gov/current/title-49/chapter-I/subchapter-B/part-200/section-200.458)

**Please also see Appendix E – Allowable/Unallowable Costs and Activities.**

As a reminder, matching contributions are highly encouraged and detailed descriptions should be included with the budget estimations under the matching funds category. **Matching funds should only be described under the separate matching funds category at the end of the narrative.**

**Please do not use arbitrary estimates when developing a project’s budget. If awarded, the project budget may require further detail and the estimates provided will need to have some research behind them to justify each budget line item.**

## FISCAL YEAR 2017 SPECIALTY CROP BLOCK GRANT PERFORMANCE EVALUATION

AMS is required to report on the outcomes of the SCBGP at a national scale to demonstrate the performance of this program. By collecting, aggregating, and reporting performance data across all states and territories, AMS can share the impact of the SCBGP with all stakeholders, including the Office of Management and Budget (OMB), Congress, the agricultural community, and the general public.

- Each project submitted in the State Plan must include at least one of the eight outcomes listed below, and at least one of the indicators listed underneath the selected outcome(s). If there are multiple sub-indicators under the selected indicator, select at least one.
- If the indicator(s) below the selected outcome(s) are not relevant to a project, a project-specific indicator(s) may be developed which will be subject to approval by AMS.
- The progress of each indicator must be reported in the Annual Performance Report and the result in the Final Performance Report.
- AMS will aggregate the data collected to assess the overall impact of the program and report to OMB and Congress on these national outcome measures.
- AMS will review the quality of the information we receive in subsequent performance reports and modify the outcomes and indicators as needed over time to lead to better results in showing the impact of the SCBGP.

### Outcome Measures

*Outcome 1: To enhance the competitiveness of specialty crops through increased sales*

### **THIS IS MANDATORY FOR ALL MARKETING AND PROMOTION PROJECTS.**

#### **Outcome Definition:**

#### Marketing and Promotion

Marketing and promotion projects focus efforts to sell, advertise, promote, market, and generate publicity, attract new customers, or raise customer awareness for specialty crops or a specialty crop venue. These include, but are not limited to:

- Uses of social media to market and promote;
- Specialty crop local, regional and national campaigns;
- Specialty crop only tradeshows;
- Website promotion and development;
- Use/development of billboards, radio, television, magazine and email ads, marketing materials such as direct mail, brochures;
- Agritourism;
- Export market development;
- Retail promotions including point-of-purchase items, labels, packaging etc.;
- Farmers market promotions; and
- Marketing and promotion campaigns with an education component directed to consumers.

The specific measure must be expressed as a dollar value and percentage increase in sales of one or more specialty crops in one or more States or foreign markets as a result of marketing and/or promotion activities. For example, an expected outcome of growth in sales from 5% to 10% is not acceptable by itself, but in combination with an increase in sales of \$1 million to \$2 Million it is acceptable. This requirement means that an established baseline of sales in dollars must should already exist at the time of application. For projects that do not already have a baseline of sales in dollars, one of the objectives of the project must be to determine such a baseline in order to meet the requirement to document the value of sales increases by the end of the project.

*Indicator:* Sales increased from \$\_\_\_\_\_ to \$\_\_\_\_\_ and by \_\_\_\_\_percent, as result of marketing and/or promotion activities

AMS understands that sales can be impacted by a host of unrelated issues including trade disputes, phytosanitary issues, export conditions, weather, and other factors affecting the farmer, supply chain, retailers, wholesalers and/or consumers. The above factors demonstrate that even a perfectly executed marketing campaign can result in sales remaining constant or even declining. These factors and events that either positively or negatively impacted the sales of a project can be explained in the performance report.

It is not intended to be all-inclusive. The applicant should consult the applicable Federal cost principles at [2 CFR § 200](#) for the complete explanation of the allowability of costs they address. Grantees will be responsible for complying with cost principles as defined in the grant agreement.

Such costs must be incurred under formally established policies of the organization, be consistently applied, be reasonable for the services rendered, and be supported with adequate documentation.</p> <p>Salary and wage amounts charged to grant-supported projects or programs for personal services must be based on an adequate payroll distribution system that documents such distribution in accordance with generally accepted practices of like organizations. Standards for payroll distribution systems are contained in the applicable cost principles (other than those for for-profit organizations).</p> <p><i>Unallowable</i> for salaries, wages and fringe benefits for project staff that devote time and effort to non-specialty crop specific venues, tradeshow, events, meetings, programs, conventions, symposia, seminars, etc. where costs cannot be specifically identified and easily and accurately traced to activities that solely enhance the competitiveness of specialty crops.</p> <ul style="list-style-type: none"> <li>• Example: Salaries and wages for a farmers' market manager to manage and advertise a farmers market that includes non-specialty crop items is unallowable, while salaries and wages for personnel to conduct a cooking demonstration on how to prepare fruits and vegetables is allowable.</li> </ul>
<b>Selling and Marketing Costs</b>	<i>Allowable</i> with conditions (see specific costs below) if the primary purpose is to promote the sale of an eligible specialty crop by either stimulating interest in a particular specialty crop or disseminating technical information or messages for the purpose of increasing market share for the specialty crops.
<b>Selling and Marketing Costs – Promotion of an Organization’s Image,, Logo or Brand Name</b>	<p><i>Unallowable for costs designed solely to promote the image of an organization, general logo, or general brand rather than eligible specialty crops.</i></p> <ul style="list-style-type: none"> <li>• <i>A promotional campaign to increase sales of “STATE/COUNTY Grown” Watermelon is acceptable while increasing brand awareness of “XYZ Grown” generically is not.</i></li> <li>• <i>Promoting tomatoes while including an organization’s logo in the promotion is acceptable, while generally promoting an organization’s logo is not.</i></li> <li>• <i>Promotional items could say “Buy STATE/COUNTY Grown Apples” but not “XYZ Grown”, which promotes XYZ generically.</i></li> <li>• <i>A promotional campaign to increase producer sales of “STATE/COUNTY Grown fruits and vegetables” is acceptable while increasing membership in “STATE/COUNTY Grown” generically is not.</i></li> </ul>

A sponsorship is a form of advertising in which an organization uses grant funds to have its name and/or logo associated with certain events and where the organization does not necessarily know how the funds associated with sponsorship costs will be used. These costs are considered a contribution or donation and only benefit the organization offering funding. This limits the beneficiaries to the sponsor organization, which

<b>Selling and Marketing Costs – Coupons, Incentives or Other Price Discounts</b>	<p><i>Unallowable for costs of coupon/incentive redemptions or price discounts. Costs associated with printing, distribution, or promotion of coupons/tokens or price discounts (i.e., a print advertisement that contains a clip-out coupon) are allowable only if they solely promote the specialty crop rather than promote or benefit a program or single organization.</i></p> <p>See also <a href="#">Participant Support Costs</a>.</p>

<b>Supplies and Materials, Including Costs of Computing Devices</b>	<p><i>Allowable for costs incurred for materials, supplies, and fabricated parts necessary to carry out a Federal award. Purchased materials and supplies must be charged at their actual prices, net of applicable credits. Withdrawals from general stores or stockrooms should be charged at their actual net cost under any recognized method of pricing inventory withdrawals, consistently applied. Incoming transportation charges are a proper part of materials and supplies costs. Only materials and supplies actually used for the performance of a Federal award may be charged as direct costs.</i></p> <p>A computing device is a supply if the acquisition cost is less than the lesser of the capitalization level established by the applicant or subapplicant for financial statement purposes or \$5,000, regardless of the length of its useful life. In the specific case of computing devices, charging as direct cost is allowable for devices that are essential and allocable, but not solely dedicated, to the performance of a Federal award. Where federally-donated or furnished materials are used in performing the Federal award, such materials will be used without charge.</p>
<b>Training</b>	<p><i>Allowable for the State department of agriculture applicant when training is directly related to Federal grants management in proportion to the amount of time and effort expended by the trainee on the grant program.</i></p> <p><i>Allowable when the training is required to meet the objectives of the project or program.</i></p>

4. *Highlight the target population reached and products developed (including intended use and audience).*

#### **FOR EXAMPLE:**

ABC State University improved protocol of integrated management of bacterial spot in tomatoes through focusing on the tomato seedling production stage and educating growers on best management practices. Researchers tested 240 processing and fresh market lines of tomato varieties in addition to 93 wild species for each variety's resistance to bacterial spot. At the test's conclusion, it was possible for researchers to obtain data sufficient to identify accessions and lines with elevated resistance to *X. gardneri* (the cause of bacterial spot) through expanded greenhouse screening. These results were disseminated to tomato transplant producers via comprehensive vegetable disease fact sheets that were posted online and which have been viewed over 1,700 times by 223 unique visitors. Furthermore, approximately 270 stakeholders were presented with project information at two field nights, two tomato disease workshops, and at a symposium.

The Food, Conservation, and Energy Act of 2008 (Farm Bill) amended the Specialty Crops Competitiveness Act of 2004. Under the amended Act, the Secretary of Agriculture is directed to make grants to States for each of the fiscal years 2008 through 2012 to be used by State departments of agriculture to enhance the competitiveness of specialty crops. The American Taxpayer Relief Act of 2012 provided funding for fiscal year 2013 and section 10010 of the Agricultural Act of 2014, Public Law 113-79 will provide funding for fiscal years 2014 through 2016.
