This label must be in the possession of the user at the time of pesticide application.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.
FAILURE TO FOLLOW THE DIRECTIONS FOR USE AND PRECAUTIONS ON THIS LABEL MAY RESULT IN POOR INSECT CONTROL, CROP INJURY, AND/OR ILLEGAL RESIDUES.

General Information

Alfalfa (Grown for Seed)

Apply at 4 pints of product per acre in a minimum of 10 gals. of water per acre with ground equipment or a minimum of 5 gals. of water per acre by air. Make foliar applications after spring cutback for control of Lygus, leafhoppers, and weevil. A maximum of one application of Supracide per season is allowed.

Note: To avoid injury to pollinating insects, do not apply during bloom if bees are in field area. Do not apply or allow drift to blooming crops or weeds when bees are actively foraging in the treatment area.

Additional Precautionary Use Conditions

(1) For purposes of pesticide registration in the State of Arizona, all alfalfa seed crop fields are considered non-food and non-feed sites of pesticide use provided that the following conditions are met.

- a) All seed screenings shall be disposed of in such a way that they cannot be distributed or used for food or feed. The seed conditioner shall keep records of screening disposal for three years from the date of disposal and shall furnish the records to the State forthwith upon request. Disposal records shall consist of documentation from a controlled dumpsite, incinerator or other equivalent disposal site and shall show the amount of material disposed of, its grower and the date of disposal.
- b) No portion of the seed alfalfa plant including, but not limited to, green chop, hay, pellets, meal, whole seed, cracked seed and seed screenings may be used or distributed for food or feed purposes.
- c) All alfalfa seed grown or conditioned as a non-food or non-feed site in the State of Arizona shall bear a tag or container label which forbids the use of the seed for human consumption or animal food.
- d) No alfalfa seed grown or conditioned as a non-food or non-feed site in the State of Arizona may be distributed for human consumption or animal feed.

(2) Violation of any condition listed in subsection (1) above is declared a violation of the use directions contained in this label and is prohibited.

Producers of alfalfa seed who use this product, or cause the product to be used on fields they operate, are required to inform, in writing, conditioners receiving seed produced on fields treated with this product. A copy of the labeling is required to be provided to the conditioner by the producer. Processed seed must be labeled "Not for human or animal consumption" at the processing plant. The processor must dispose of all seed screenings in such a way that they cannot be distributed or used for food or feed.

Notes: Field reentry after application is 72 hours.

Chemigation: Do not apply this product through any type of irrigation system.
